On behalf of the Board of Directors, it is my pleasure to present the financial results of Kingboard Copper Foil Holdings Limited ("the Company") and its subsidiaries (together with the Company, "the Group") for the second quarter of 2015 ("Q2 2015"). Revenue for the current quarter comprised (i) the receipt of license fee of HK\$30 million pursuant to the on-going licensing arrangement which was renewed for a term of two years on 1 September 2013 and (ii) the sale

of polyvinyl butyral ("PVB") resin for HK\$126 million, a basic raw material for the production of PVB film which is used to produce reinforced glass for both automotive industry and buildings. The Group's turnover increased 19% to HK\$156 million against the second quarter of 2014 ("Q2 2014"). Net profit attributable to owners of the Company for the current quarter was HK\$2.9 million.

Distribution costs in Q2 2015 increased 65% to around HK\$5.3 million as shipment volume increase and products are delivered to further distance in the current period. Finance costs in Q2 2014 was approximately HK\$189,000 and was nil in Q2 2015. The bank borrowing raised by a PVB plant in the People's Republic of China in last year was fully repaid in February 2015.

Our financial position continued to be sound. As at June 30, 2015, net current assets and current ratio were approximately HK\$1,466 million and 18.3 respectively. Current assets mainly comprised cash and bank balances of HK\$1,371 million, trade and other receivables and prepayments of HK\$87 million, bills receivables of HK\$54 million and inventories of HK\$38 million. As at end of Q2 2015, the Company's interest in Linkfit Investment Holdings Limited ("Linkfit"), a private company incorporated in Samoa, was 29.67%. The unquoted equity shares were stated at fair value at the end of the reporting period.

Licensing Arrangement

At the Annual General Meeting of the Company held on April 29, 2011, the shareholders of the Company did not approve the renewal of the mandate ("Shareholders' Mandate") to enable the Group to enter into interested person transactions with Kingboard Chemical Holdings Limited ("Kingboard Chemical") and its associates (together, the "Interested Persons"). As an interim measure, the Company has entered into a two-year licensing arrangement to license the properties, inventory and machinery that were previously used for the production of copper foil with effect from 1 September 2011 to Harvest Resources Management Limited, an independent third party, in order to ensure that a steady stream of license fee is received by the Group. The licensing arrangement is renewed for the term of two years to end of August 2015. The Group will, in compliance with the Listing Manual, make relevant disclosures as and when appropriate.

PVB Business

As mentioned previously, PVB is a key raw material for PVB film which is used in reinforced glass for both automotive industry and buildings. As the Chinese government continues to encourage domestic consumption and improve living standard for Chinese citizens, we believe that the demand for automotive and building construction will continue to be robust which would in turn drive up demand for PVB products. The Group will focus on upgrading our production capabilities and product mix to meet customer demands in order to further advance market share in the domestic China market.

The Company is of the view that the allegations are baseless and the petition itself is without merit. The trial for the petition is fixed for 9 to 18 September 2015. The Company will make further announcements as and when necessary to keep shareholders informed of material developments in this matter.
